THE NEW FACE OF CREDIT TODAY AFTER 9/11/01

Since the events of 9/11 (September 11, 2001), all government agencies and private credit bureaus have taken extraordinary steps to prevent terrorism by cross-referencing credit profiles and monitoring financial movement for identity purposes. This means that social security numbers and non-tax identification numbers are the *only* numbers allowed on the three major consumer credit bureaus, which are Experian, Equifax, and Trans Union.

Their point is a question of identity! You see any act of changing or manipulating your identity is taken very seriously and could be blown out of context in this heightened state of alert. By the way what color is the security alert today, Orange or Purple? So with this in mind, one only has a few choices to take control of their credit world and get it right the first time:

1. Increase and revamp your existing FICA score based on our proven strategies using the digital number approach for credit solutions.
2. Start a new business credit profile (i.e. a corporation because it has a legal separate identity, thus entitled to a separate credit profile).

ACTIVATE YOUR PRE-APPROVED PASSPORT TODAY: #74408500 6420 8000

Order the FICA Increase program today and receive a \$5,000.00 to \$10,000.00 line of credit approval will be guaranteed to you with your passport membership, in addition to qualifying for a Visa or MasterCard.

WHAT IS THE FICA SCORE INCREASE PROGRAM?

We use the very same three digit credit score rating techniques to focus on the incremental rating point system for score improvement based on a variety of accepted reasons, i.e.:

1. Profile stability such as a physical address versus a P.O. Box.
2. Employment history, and the (12) *crucial* demographics used to identify you on the bureaus.
3. Rapid deletion and advanced new credit building techniques.
4. The power and results of incremental payment to your creditors.
5. Removing tax liens and judgments.
6. Powerful credit strategies that must be accepted by the bureaus.
7. Insider knowledge of credit lending policies and underwriting guidelines.
8. A proven list of credit lenders and bank contacts.
9. A streamlined support program via of CD's, automated communications, and available live analyst support.
10. The *correct* way to piggy back seasoned accounts.

IS THIS GUARANTEED TO WORK FOR ME?

You will receive our introductory CD that outlines our credit building protocol and your selection options. If you are not satisfied after your review you may return the program minus shipping and handling costs. Due to proprietary information research (trade secrets), no refunds will be honored after program acceptance.

Skeptical / Cynical?

We can respect that! I would be too if I had experienced charge-offs bankruptcy, foreclosure and tax liens. You too, can have a second and third bite at the (credit apple)! Oh, you didn’t hear about New York City’s bankruptcy, Donald Trump’s bankruptcy, Orange County California bankruptcy, Wayne Newton’s bankruptcy, Chrysler Corporation and now Enron, etc ?

You think these people and companies are suffering today? You think the Credit bureau got them beat down into a little box, never to be heard from again?

OH! I know they are all special and you’re not. Better yet they have lawyers and money, right? Could it be they have hope and a open mind towards knowledge and opportunity?

Cynical:

It must be a scam! They want my hard earned money and that’s the only way they can profit because I know I am beyond help, no matter what I try. Those other people where all lucky, besides I know all about these things and nothing

ever works. "Anyway, I'll bet you Trump and Newton didn't have to pay this type of money, \$249.00 is way to much." I don't need credit or change in my life, I like things just the way they are. OKAY.

COMMOM SENSE:

Why is it that the rich and powerful, i.e. credit bureaus and their global corporate clients, always make sure via pressure, that government controls the information, given or disseminated to the little guy? Yet, those that have lawyers (money and knowledge) can repackage their failed credit into business or corporate credit overnight, or quickly rebuild their personal damaged credit into excellence. The less fortunate are subject to big brother regulating and controlling them beyond help.

No even if we where licensed to practice law, we are not going to become your power of attorney and complete every application for you nor pay your debts. **We will provide you with knowledge, guidance and one awesome list of banks and financial institutions that want your business.**
